---------------	----------------

- Made logic interesting which is a feat in and of itself.
- He wears casual shirts, so I am impelled to rate him highly. Dr. Church is highly effective and clear in his communication. If you don't succeed in his classes, it's on you. He pushes you just hard enough.
- Dr. Church did a great job creating an environment for both beginner and advanced students. He managed (in a class of about 35 people) to teach slow enough for those who may have struggled with logic as well as keeping his class interesting and giving opportunities for those to whom logic came easier. He also made sure that no quiz was taken that he did not properly prepare all his students for, mainly by checking in with all the students and answering all questions that were asked.
- I loved this class.
- This was an excellent course. I only have three minor suggestions: first, the penultimate class felt somewhat disconnected from the rest of the material covered in the course. It may have been more effective to introduce and integrate the content earlier, or just use the class as a review day. Second, the large class size sometimes made it more intimidating to ask questions and allowed for side conversations that could be distracting during lectures. Third, I would have appreciated clearer communication around expectations and exceptions. For example, I felt unprepared for a few quizzes and was not aware that I could request to take them at a later date until I saw other students doing so. In the same vein, a grading rubric for the course would also be helpful.
- G.O.A.T.
- This was my favorite class of the semester! Dr. Church is an incredible professor who made difficult subject matter fun and exciting to learn. No notes.
- This was a great class and Dr. Church taught it very well. I was particularly impressed by how he was able to work so closely with us in such a large class. Dr. Church paced the content very well; I never found myself dragging way behind or being bored with the current topic. He also did a great job always keeping the class entertaining and interactive despite the subject matter objectively not being very exciting. I will recommend Dr. Church to others and look forward to taking more classes with him.
- Had a rily tough semester with some personal things, but Dr. Church helped me graduate and get caught up. He loves his students, and it shows. I am thankful for him
- I greatly enjoyed this course. Honestly, thought it was a little too slow-paced for my liking. However, I understand that it's good for everyone to keep up. And it made it so I didn't have homework outside class :)
- By far my favorite class this semester. Would love to take a higher level logic class from Dr. Church in the future. Dr. Church struck a nice balance with the pace of the course and the class always felt manageable. Textbook was very helpful for practice.
- YEAHHHHHHHHHH DR. CHURRRRCCHHHHHHHHHHHHHHHHH!!!! He is my favorite professor by far on campus <3<3<3<3<3<3<3 He is a wonderful professor, teaches his subjects very engagingly, and always makes himself available to students during his office hours and also at other times if those don't work for his students. He's gracious and kind, and never makes a student feel stupid even if he just answered the question they ask. His class is challenging, but he always does his best to care for each and every student to make sure they have a chance of succeeding. TRIPPLE HIS SALARY
- MY FAVORITE PROFESSOR!!! TRIPLE HIS SALARY!! HE'S THE GOAT!!
- You are amazing!!! Thanks for teaching the course so clearly and giving so much flexibility to different learning styles
- Thank you so much Dr. Church! Even though the class was big, I never felt intimidated to ask questions because you were so patient and understanding. And the memes were amazing
